

## **Andrea Smith wins the NZ National CEI 3\* Endurance Championship 2011**

Riding Glenmore Tariq, Andrea completed the 160km race at Lake Taupo over Easter in the time of 9.34.55 at an average speed of 16.7kph and finished unchallenged.

Daughter Georgia won all the National Junior awards this season, and her sister Brigitte was runner-up in them all:

Junior Distance Rider

Junior Horse and Rider

Junior Distance Horse - the first four horses to complete this race all belong to the Smith family.

"TuffRock Non-Medicated Poultice is an essential ingredient in our horse-care kit. Our horses' legs are always poulticed with TuffRock after competition, it is routinely used by us to prevent swelling. I am amazed at the effect it has on any areas of inflammation and heat."

**We would not use any other product !!!!**

"We have found that TuffRock Conditioner Plus is a very useful Feed additive, to keep all those in hard work looking in tip-top condition. It's also great for the "picky-eaters" as their appetite increases. They eat their feeds faster - so important on long endurance rides, as the horses only get a short hold period to fuel up and get onto the next loop."

**We would thoroughly recommend Tuffrock Conditioner Plus to anyone with horses like this, or ones which they struggle to keep condition on ... *Andrea Smith.***
