

AUSTRALIAN TESTIMONIAL

Beauty's story in point form ...

- Chased by wild dogs into barbed wire fence & waratah which caused the big chest wound
- First aid applied including saline wash
- Vet attended and cut off dangling flesh which weighed just under 5 kgs and was the size of a rugby ball
- 1 course of antibiotics and bute paste for 3 days
- Conditioner Plus twice a day at least 30 ml each time for first 10 days, then 20 ml twice daily
- Herbal spray on wound and poultice over the top
- Poultice reapplied at least twice a day, sometimes 3 times for first couple of weeks
- Poultice only washed off every 2nd day for first 10 days, then every 3rd day for next 6 weeks, then every 4th day
- Today the wound is the size of 50 cent piece
- Everyone is completely amazed to observe the regrowth of flesh including the muscle rebuilding
