" Winning horses need the right conditions ... inside and out "

BONNI PAUL - KIVA ARABIANS - AUCKLAND - NEW ZEALAND

'Soul Fire had a tough start to life - as a newborn, he suffered failure of passive immunity. The plasma he needed to give him that much-needed immune boost knocked his newborn system. Even though he was relatively strong and healthy, it was always a struggle to keep him in good condition and his coat had a bleached fluffy look to it. As a weanling, he had a few other minor incidents, all of which set him back a little, leaving him flat and depressed much of the time. He still had moments of his true nature showing through (playful and curious boy) so it was frustrating trying to get to the bottom of it with no success! He never looked sickly, he just wasn't right ... so last year I emailed Suzanne from TuffRock with some questions, and between her and Head Office in Australia, they really took the time to listen to Zebo's story and my concerns. I came away feeling positive about trying TUFFROCK CONDITIONER PLUS! Within weeks Zebo was a different horse - gone were the depressed, flat moments. His coat is now glossy, silky and rich without using any expensive products to enhance it! I have dropped all the other "preventatives" and supplements as I don't need to use them anymore ...'

'... after a long time waiting and working hard to get Zebo (aka Soul Fire) looking like the gorgeous boy he has always had the potential to be, we had our first outing to the Waikato A&P Show 2008 where he not only went Junior Purebred Arabian Gelding & Champion Purebred Arabian Gelding, he also trotted his way to win the Supreme Purebred Arabian Exhibit award with handler Angela Rogers!

TUFFROCK CONDITIONER PLUS
HAS BEEN AN
ABSOLUTE GOD SEND!
