

TuffRock

Supporting nature's balance™

Carolyn Henley Performance Horses

One of the things that attracted me initially to TuffRock Conditioner Plus is the way it complements my feeding regime and assists nutrient conversion. I have found TuffRock helps me keep my horses sound in both body and mind, especially under competitive conditions. Now they are on Tuffrock, the quality of my horses coat speaks for itself and I was delighted to discover how calm my sensitive young horses now feel without losing any focus training or competing.

Tuffrock Poultice is an excellent product as well, very effective in many ways and complements horses that compete on hard grounds in Australia. I especially like how good it is for splints and muscle soreness, very easy to use as a preventative or recovery.
