

2007 SUSPENSORY LIGAMENT TESTIMONIAL

Jade Park Smokin – Multiple Australian Supreme Champion Arab returns & wins using
TuffRock Conditioner Plus

Owner: Debra Partridge – Orchard Hills, Sydney, Australia

Jade Park Smokin re-entered East Coast Arabian Championships 2007 after 2 years “off the circuit”

WINNER Top 5 – Senior Arabian Gelding Championships,
Finalist - Arabian Gelding 4 yrs and Over

FACT 1: Veterinary advice received in 2005 to have horse put down. Debra refused to accept there must be some way to fix one of Australia’s Best Young Champions with an impeccable show record and believed a new product must come onto the market to help.

FACT 2: Major suspensory ligament damage, 3 tears, horse lame and struggling on 3 legs, major tear size 1.8mm thick, approx. 150 mm long, ultrasound scans before and after TuffRock prove 100% recovery.

FACT 3: 2 years off with injury, 14 months ago Debra was advised by a friend to try TuffRock’s new Conditioner Plus product along with a simple regular exercise program and work with the University of Sydney Equine Veterinary Centre to bring Smokin back.

FACT 4: *“I cannot thank TuffRock enough for Conditioner Plus – I am sure that without this product to help me there is no way I would ever ride Smokin again and to be able to show him again is a dream come true. There is hope for horses with these problems and I am only too pleased to tell the world what sensational products TuffRock have.” Debra Partridge*

TuffRock Equine Products – Supporting Nature’s Balance

Hi - sent you scans first showing the top part of scan normal horizontal line up of ligament- bottom of the scan all grey showing inflammation - next one showing 6mths later lateral lines improving throughout ligament.
