

KATE WOOD - EVENTING NORTHLAND RIDER OF THE YEAR 2008

"I was sceptical about using TuffRock Conditioner Plus at first as I generally stick very much to the basics! However, after first trying the TuffRock on Scarlett O'Hara, I now have all my horses on this amazing product. Scarlett O'Hara used to have a problem drinking when she was away from home, which was really hindering her competition performance. However, since being on the Conditioner Plus, she has been drinking and eating brilliantly while away. Not only has this helped her performance, but she has looked amazing all season.

All my horses' coats have improved (even with the zero brushing they receive!) and they look and feel great too. The horses are also keeping on condition so much better.

I would thoroughly recommend this product to anyone who wants the best out of their horses both performance and appearance wise."
