

Foal Plus

Lee Cox - Euralea Arabians - Kaiapoi NZ

" I am very pleased with the results I've had from using TuffRock Foal Plus. My mare, who was already on the TuffRock Conditioner Plus, actually foaled 21 days early, a lovely colt who was very well covered. He didn't even look newborn, let alone premature! I started him on the Foal Plus the day he was born, and the following 6 days as recommended. I am pleased to report that I did not experience any problems over the mare's foal heat. The foal did not scour at all. I will definitely be using this product again when my other foals are born."

EURALEA ESCAPADE
at five days old!
