

As a 'Showie' I have spent a small fortune over the years, and tried almost every coat & body conditioning product and mineral mix on the market. I have never noticed any significant (if any) changes in my horse's appearance – nothing like the before and after shots you see in most of the flashy advertising. That was, until I tried TuffRock. I started with 2 horses, my stallion who is in his mid teens & my very tall & still growing then 5 yr old. Wow, what a difference! Arnie (stallion) became so much more lighter, elastic & elevated in his movement and looked amazing - more like a 5 yr old than 15. And Gus (aka Kazmere Can Do, above) just bloomed. He went from a wishy, washy ginga to a rich chestnut and finally started to fill out his tall frame with weight over his topline.

I loved TuffRock so much, when I went to HOY (09) and raved to Peter & Suzanne about their product - and now I'm selling it! I can't recommend it enough. My horse's looks, condition, performance and successes start with TuffRock Conditioner Plus.
