

Rebecca Stubbs Testimonial and Photos

Hi Steve,

Well my mare has been doing really well - Tahnee the aged appy mare. Anyway she foaled last night, and you know I was having trouble with her and her weight, well she has only been on the TuffRock Conditioner Plus 4-5 weeks roughly, and has picked up so much. Also, I'll send a pic of my filly foal born 12 days late as they had EI. It also helped them through EI and the pregnancy. Tahnee foaled a stunning filly foal that is so well grown - no weany foal here, she looks three weeks old, no scrunchiness LOL at all.

I'll attach pic's, and you are welcome also to use photos. I am rapt with TuffRock Conditioner Plus! My other mare was only on it a week and foaled a stunning colt, but was weany. Tahnee's last year foal was also not real big (different sire) but was not as filled out as much as this little filly.

Please see attached pics of her at 4 hours old ... she is cantering around already today - as strong as a few week's old foal would!
