Replacement Felt or Neoprene Liner	\$59.00
Replacement Wool Fleece or Leather Liner	\$89.00

SELF-CENTER GIRTH SIZING of the G3 Saddles and the Dressage Formal G4:

Measure the horse's circumference (including girth groove) and subtract 46".

Example: the 72" horse would require a 26" girth. Size range is 18" - 36".

SELF-CENTER GIRTH SIZING of the Western Sport G4 - subtract 40".

ENGLISH & WESTERN BREASTPLATES combine the best of all of what we feel are important features to have in a breastplate. They mate ideally with any of the Sensation™ Ride saddles and permit full use and freedom of the saddle along with the safety of a limited side and rearward slip whilst riding over vigorous terrain, or when the girth becomes loose.

FEATURES OF BREASTPLATE:

- Care-free Beta or Granite Biothane materials provide strength.
- Backing of padded, waterproof leather.
- Solid hardware sewn in - never worry about rust again.
- Easy on, easy off. Breastplate clips onto a harness which stays on the saddle and serves as an additional handle for the saddle.
- Protected buckles - Our backing covers the area under the buckles to protect your horse from any hardware pressure in prone areas.
- Large degree of adjustability.

HARMONY BRIDLE is the one bridle that permits you to use it 7 different ways.....

* Bosal action bitless * Bit hanger use * Side pull action bitless * Crossover bitless
* Bit ends w/o noseband * Halter * Bit with noseband, w/out hangers

FEATURES OF BRIDLE:

- Care-free Beta or Granite Biothane materials provide strength.
- Backing of padded, waterproof leather.
- Solid hardware sewn in - never worry about rust again.
- Substantial adjustment including the browband.

OPTIONS FOR BOTH BREASTPLATE & BRIDLE:

- Overlay of Colour - make it removable or permanent – add a splash of colour to your gear to match your attire, packs or whatever.
- Underlay of leather - colours available will vary.
- Solid Brass or Stainless Steel hardware.
- Horse size, Arab size or custom.

CARE:

- Washable components - Just wipe with a dampened cloth, or hose down.
